## **Hillman's Principles of Contract Law, 2d (Concise Hornbook Series)** Robert A. Hillman

This overview of contract law explains concepts clearly and concisely, in an informal, humorous style. For easier reading and understanding, the book refrains from including complex textual footnotes. Instead, the footnotes cite cases, with most including short quotations to substantiate assertions made in the text. The book also contains numerous examples and illustrations. Cross-references enable readers to review concepts that constitute building blocks for the current material. This second edition revises several sections in part to keep up with how changes in technology have influenced contract law. It also includes new references to recent decisions that treat the core concepts.
