Poetry. What mom doesn't recall the magical seasons surrounding the birth of her baby--the anticipation felt during pregnancy; the pain and pride, on delivering; the joy of watching her child grow? And what dad can forget saying to himself, upon first holding his infant, "I'm really a father now," with all the accompanying awareness of being responsible for another human being? Chronicling the development of his own firstborn, from her conception through age one, Louis Daniel Brodsky provides, for us all--from experienced parents to those who have yet to see that "gleam in the eye"--a window on that glorious time.
