American Folktales: From the Collections of the Library of Congress: From the Collections of the Library of Congress Carl Lindahl

This two-volume collection of folktales represents some of the finest examples of American oral tradition. Drawn from the largest archive of American folk culture, the American Folklife Center at the Library of Congress, this set comprises magic tales, legends, jokes, tall tales and personal narratives, many of which have never been transcribed before, much less published, in a sweeping survey. Eminent folklorist and award-winning author Carl Lindahl selected and transcribed over 200 recording sessions - many from the 1920s and 1930s - that span the 20th century, including recent material drawn from the September 11 Project. Included in this varied collection are over 200 tales organized in chapters by storyteller, tale type or region, and representing diverse American cultures, from Appalachia and the Midwest to Native American and Latino traditions. Each chapter begins by discussing the storytellers and their oral traditions before presenting and introducing each tale, making this collection accessible to high school students, general readers or scholars.
