Produktionstechnische Praxis: Grundlagen chemischer Betriebstechnik (German Edition) Annerose Hahn, Bernhard Behle, Dieter Lischewski, Wolfgang Rein

Work in chemical production requires that technicians, workers and trainees are fully informed on all aspects of industrial processes.

This book treats the fundamentals of chemical engineering and contains essential information about materials in piping systems. In addition, reaction techniques and requirements for environmental protection in the chemical industry are provided. This exceptional book is especially valuable for laboratory assistants, technicians and foremen in the chemical industry.
