Reorienting the 19th Century: Global Economy in the Continuing Asian Age Andre Gunder Frank, Robert A. Denemark

Andre Gunder Frank was a path-breaking scholar in several disciplines over an illustrious and contentious 50-year career. First amongst his many important works is the book ReORIENT: Global Economy in the Asian Age, which sought to correct a Euro-centric world view of the development of the global political economy. Frank passed away in April 2005 while working on this new book, a sequel to ReORIENT. In this book Frank shows many of the myths of European industrialisation, hegemony and capitalism which have hidden the fact that Asia remained a serious power not just into the 18th century, as Frank himself argued in 1998, but well into the 19th century as well. When Frank passed away his colleagues rallied to finish this book and it is presented here as his final major statement.
