Develop new skills and strategies for inclusive mathematics teaching!

The highly acclaimed *Math for All* workshop program helps general and special education teachers collaborate to reach all students with standards-based mathematics lessons. This participant book is the companion to the *Math for All K-2* facilitator's guide, and includes all the reproducibles, plus classroom assignments that extend learning between workshop sessions. Participants will find:

- A user-friendly overview of the eight neuro-developmental functions that shape mathematics learning
- Hands-on activities and tools that help teachers accurately identify students' strengths and challenges, then adapt instructional strategies accordingly
- Techniques for reaching ELLs and students with disabilities
