The First Compendium of Social Network Research Focusing on Children and Young Adult: Social Networks of Children, Adolescents, and College Students Suzanne Salzinger, John Antrobus, Muriel Hammer

Research on adult personal-social networks has contributed greatly to an understanding of mental health, illness, and responses to stress. Fueled by this successful research and a growing concern for today's youth, the contributors to this volume have conducted investigations into the functioning and structures of the social networks of toddlers, school-age children, adolescents, and college students.

The editors of this volume move beyond vague generalizations about characteristic and behavior acquisition through socialization in childhood by applying a longitudinal perspective to the sampling of child, adolescent, and young-adult network research. *Social Networks of Children, Adolescents, and College Students* unites several major empirical studies of children's social networks, investigating the acquisition of specific behaviors from particular groups of individuals under certain conditions.

Topics covered include:

- * the effects of social networks on child development and disorder
- * the relationship between social networks and coping with stress the role of friends or groups in positive socialization
- * Of special interest to practitioners, researchers, and advanced students are:
 - * comparative data on children from other cultural groups and non-mainstream American youths descriptions and evaluations of methodologies
 - * introductory materials by the editors commenting on the field and the research extensive bibliographies
