Debate style readers can be powerful teaching tools, but only if the readings really speak to one another; otherwise, the crux of the debate is lost on students.

Peter M. Haas and **John M. Hird's** *Controversies in Globalization* solves this issue by inviting 17 pairs of scholars and practitioners to write specifically for the volume, directly addressing key questions in international relations through concise "yes" and "no" pieces on topics related to security, political economy, the environment, public health, democracy, demography, and social issues. At the request of reviewers, new to this edition are three chapters covering the financial crisis, maritime security, and international conflict. Chapter headnotes written by the editors effectively frame each debate and make clear what is at stake from both theoretical and practical perspectives. Concluding discussion questions in each chapter encourage critical thinking and analysis.
