Warning Signs: He is using you Calvin Klein

Dear Reader,

In today's life, there are a few questions that I am frequently facing. I am sure most people have also been asked such queries. Among these, one of the most heartbreaking questions has got to be "Is my boyfriend cheating on me?" As a matter of fact, I'll usually hear this question at least once a day, sometimes even more. Every situation is different; sometimes I can definitely tell if it's a yes or a no, but most answers are a lot more complicated. Infidelity doesn't usually come out of the clear blue sky, and it's almost always easy to spot the signs and signals that something is wrong. Usually, before someone acts out to consciously violate the trust of a loving relationship, there is a period of unsettled sadness or restlessness.

If you know the signs, it isn't too hard to figure out when something is wrong, even if your mate is not vocalizing his concerns. This eBook has been written with love, as well as with the genuine desire to help you identify signs that your partner is cheating on you.

Recognizing the signs of a cheating spouse can save you, a lot of heartache and in some cases even salvage your relationship if it can be mended. It is often more distressing to wonder if your spouse is cheating than it is to find out one way or the other if he or she has been stepping out on you.

Some relationships can survive infidelity. However, before you can decide what to do next, it's best to figure out where you stand right now. No matter what your hunches tell you, it is always best to get hard evidence before confronting a potential cheater.

Regardless of what happens... remember that we all deserve to be in healthy relationships with people who love us. You're no exception to this rule. If your man is doing you wrong, there's someone else out there who will treat you right. Trust me.
