Marek's Disease: An Evolving Problem (Biology of Animal Infections)

Marek's Disease: An Evolving Problem (Biology of Animal Infections)

Marek's disease is a form of cancer of poultry caused by an important herpesvirus (MDV). It continues to be a threat to poultry health and welfare and worldwide losses are estimated to be US\$ 1 billion annually. This book provides a timely review of the problems of Marek's disease with descriptions of the complex viral life cycle, how MDV targets different types of white blood cells, and details of the virus structure, its genes and proteins.

- * The multiplicity of factors contributing to susceptibility is explored in detail
- * Vaccination - the problems arising from current vaccination strategies and how these can be improved and made sustainable in future
- * The lessons learned in the control of MD over the past 30 years, and how we can use MD as a model for other animal and human diseases is discussed

You can find what you are looking for. It should be here for anyone. So , don't miss the item! Just read this e-book type for your better life and knowledge.

Ann David:

As a student exactly feel bored in order to reading. If their teacher requested them to go to the library or make summary for some reserve, they are complained. Just small students that has reading's soul or real their passion. They just do what the trainer want, like asked to go to the library. They go to at this time there but nothing reading seriously. Any students feel that studying is not important, boring and can't see colorful images on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this Marek's Disease: An Evolving Problem (Biology of Animal Infections) can make you experience more interested to read.
