Catheter-Related Infections In The Critically Ill (Perspectives on Critical Care Infectious Diseases)

Catheter-Related Infections In The Critically Ill (Perspectives on Critical Care Infectious Diseases)

Catheter-Related Infections in the Critically Ill provides an overview from an international perspective on intravascular catheters and the risk of infection. This volume highlights:

Epidemiology

Diagnosis

Impact of Infection

Management and Treatment

Prevention - including Education as the Primary Tool for Prevention

The purpose of this book is to provide the practitioner with the most interesting and useful data in the field of catheter-related infection. It is hoped that the strategies to prevent infection detailed by the authors will be implemented and have a measurable impact in decreasing rates of infection in the intensive care unit setting.
