Gerontechnology: Research, Practice, and Principles in the Field of Technology and Aging

Gerontechnology: Research, Practice, and Principles in the Field of Technology and Aging

Gerontechnology: Research, Practice, and Principles in the Field of Technology and Aging

Two mega-trends of modern culture, the rapid aging of the population and the inexorable advances in technology, have fueled the development of gerotechnology – the use of technology to sustain individual autonomy to an advanced age. This expansive book encompasses state-of-the-art research in gerotechnology and promising new technologies, products, as well as services that can improve activities of daily living, general health, and wellbeing of older individuals. It addresses current and future applications in such crucial areas as mobility and transportation, assistive devices, smart homes for senior citizens, in-home technologies, safety and privacy, and research and development highlighting - among others - design.

Topics include, but are not limited to: virtual environments as a research tool, sensation, perception, and cognition research advancements, novel accessibility challenges to information and communication technology, as well as the evolving characteristics of the elderly. These are among the welcome developments addressed in the book. Contributors from around the globe, including the UK, Germany, Japan, Canada, the Netherlands, Korea, the US, and more, bring unprecedented cross-cultural insight to the intersections of aging phenomena and technology.

Key Features:

- Disseminates empirically proven findings and evidence-based theories, models, and concepts
- Written by world-recognized leaders in the field of technology and aging
- Reflects the global usage of gerotechnological applications
- Includes new technologies, research, and applications for virtual environments, smart homes, assistive technology care, and robotics
- Discusses computer-assisted social engagement, technology-facilitated caregiving, business case examples, and more

Cecil Hardin:

Reading a publication tends to be new life style with this era globalization. With reading you can get a lot of information that may give you benefit in your life. Having book everyone in this world could share their idea. Ebooks can also inspire a lot of people. A great deal of author can inspire their very own reader with their story or perhaps their experience. Not only the story that share in the publications. But also they write about advantage about something that you need example. How to get the good score toefl, or how to teach your young ones, there are many kinds of book which exist now. The authors these days always try to improve their ability in writing, they also doing some investigation before they write on their book. One of them is this Gerontechnology: Research, Practice, and Principles in the Field of Technology and Aging.

Camille Wolfe:

This Gerontechnology: Research, Practice, and Principles in the Field of Technology and Aging is great publication for you because the content that is certainly full of information for you who have always deal with world and have to make decision every minute. This kind of book reveal it information accurately using great manage word or we can say no rambling sentences inside it. So if you are read it hurriedly you can have whole info in it. Doesn't mean it only will give you straight forward sentences but hard core information with splendid delivering sentences. Having Gerontechnology: Research, Practice, and Principles in the Field of Technology and Aging in your hand like getting the world in your arm, facts in it is not ridiculous just one. We can say that no book that offer you world within ten or fifteen moment right but this guide already do that. So , this is good reading book. Hi Mr. and Mrs. active do you still doubt in which?

Robert Beaubien:

As a pupil exactly feel bored for you to reading. If their teacher expected them to go to the library or to make summary for some publication, they are complained. Just small students that has reading's internal or real their passion. They just do what the trainer want, like asked to go to the library. They go to there but nothing

reading very seriously. Any students feel that reading is not important, boring as well as can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this Gerontechnology: Research, Practice, and Principles in the Field of Technology and Aging can make you experience more interested to read.
