Kernel Functions and Elliptic Differential Equations in Mathematical Physics (Dover Books on Mathematics)

Stefan Bergman, Menahem Schiffer

Kernel Functions and Elliptic Differential Equations in Mathematical Physics (Dover Books on Mathematics) Stefan Bergman, Menahem Schiffer

This text focuses on the theory of boundary value problems in partial differential equations, which plays a central role in various fields of pure and applied mathematics, theoretical physics, and engineering. Geared toward upper-level undergraduates and graduate students, it discusses a portion of the theory from a unifying point of view and provides a systematic and self-contained introduction to each branch of the applications it employs.

The two-part treatment begins with a survey of boundary value problems occurring in certain branches of theoretical physics. It introduces fundamental solutions in a heuristic way and examines their physical significance. Many concepts can be unified by concentrating upon these particular kernels, and the text explains the common mathematical background of widely varying theories, such as those of heat conduction, hydrodynamics, electrostatics, magnetostatics, and elasticity. In addition to its intrinsic interest, this material provides illustrations and exact mathematical formulation of the problems and the methods. The second part is confined to a rather special type of partial differential equation, which is dealt with in the greatest detail so that students can make applications and generalizations to similar problems.

From reader reviews:

Molly Edwards:

Do you have favorite book? If you have, what is your favorite's book? E-book is very important thing for us to be aware of everything in the world. Each reserve has different aim or even goal; it means that publication has different type. Some people sense enjoy to spend their time to read a book. These are reading whatever they have because their hobby is usually reading a book. Think about the person who don't like reading a book? Sometime, individual feel need book once they found difficult problem as well as exercise. Well, probably you'll have this Kernel Functions and Elliptic Differential Equations in Mathematical Physics (Dover Books on Mathematics).

Samuel Potter:

With other case, little people like to read book Kernel Functions and Elliptic Differential Equations in Mathematical Physics (Dover Books on Mathematics). You can choose the best book if you appreciate reading a book. Provided that we know about how is important any book Kernel Functions and Elliptic Differential Equations in Mathematical Physics (Dover Books on Mathematics). You can add expertise and of course you can around the world by the book. Absolutely right, simply because from book you can learn everything! From your country until finally foreign or abroad you will be known. About simple point until wonderful thing it is possible to know that. In this era, we can open a book or searching by internet system. It is called e-book. You may use it when you feel bored stiff to go to the library. Let's study.

Faye Michaels:

This book untitled Kernel Functions and Elliptic Differential Equations in Mathematical Physics (Dover Books on Mathematics) to be one of several books in which best seller in this year, this is because when you read this guide you can get a lot of benefit into it. You will easily to buy that book in the book retail outlet or you can order it by using online. The publisher on this book sells the e-book too. It makes you quickly to read this book, because you can read this book in your Cell phone. So there is no reason for your requirements to past this publication from your list.

Kenneth Armstrong:

Many people spending their moment by playing outside using friends, fun activity along with family or just watching TV 24 hours a day. You can have new activity to invest your whole day by looking at a book. Ugh, think reading a book will surely hard because you have to accept the book everywhere? It alright you can have the e-book, getting everywhere you want in your Cell phone. Like Kernel Functions and Elliptic Differential Equations in Mathematical Physics (Dover Books on Mathematics) which is finding the e-book version. So , try out this book? Let's see.
