**The Lure of the City: From Slums to Suburbs** Austin Williams, Alastair Donald

Cities, by their very nature, are a mass of contradictions. They can be at once visually stunning, culturally rich, exploitative and unforgiving. In *The Lure of the City* Austin Williams and Alastair Donald explore the potential of cities to meet the economic, social and political challenges of the current age.

This book seeks to examine the dynamics of urban life, showing that new opportunities can be maximised and social advances realised in existing and emerging urban centres. The book explores both the planned and organic nature of urban developments and the impacts and aspirations of the people who live and work in them. It argues convincingly that the metropolitan mindset is essential to the struggle for human liberation.

The short, accessibly written essays are guaranteed to spark debate across the media and academia about the place of cities and urban life in our ever-changing world.
