Sailing to Classical Greece: Papers on Greek Art, Archaeology and Epigraphy presented to Petros Themelis Olga Palagia, Hans Rupprecht Goette

This volume of 15 papers is a tribute to Petros Themelis for his significant contribution to Greek archaeology and especially to the excavation, study and conservation of the ancient site of Messene in the Peloponnese. An international cast of scholars has contributed essays on a wide range of subjects (Greek sculpture, epigraphy and architecture), which reflect the interests of the honorand. New, previously unpublished material from Messenia, Athens and elsewhere is here presented for the first time. The geographical and chronological range of the contributions to this book extends from the Geometric period to the Roman Empire and from Macedonia to Crete and Magna Graecia.
