Detecting & Classifying Low Probability of Intercept Radar (Artech House Radar Library)

Philip E Pace

Detecting & Classifying Low Probability of Intercept Radar (Artech House Radar Library) Philip E Pace

The drive is on to devise LPI radar systems that evade hostile detection as well as develop non-cooperative intercept devices that outsmart enemy LPI radar. Based on the author's own design experience, this comprehensive, hands-on book gives you the latest design and development techniques to innovate new LPI radar systems and discover new ways to intercept enemy LPI radar. Over 200 graphics illustrate the underlying principles of LPI waveform design and help you visually identify waveform parameters. Filled with more than 500 equations that provide rigorous mathematical detail, this book can be used by both entry-level and seasoned engineers. Besides thoroughly treating LPI radar theory and intercept signal processing, this book includes such real-world applications as anti-ship cruise missile LPI seeker solutions. The CD-ROM contains MATLAB code that you can use on the job to evaluate complex LPI radar-receiver interactions.

From reader reviews:

Steven Page:

In this 21st century, people become competitive in each and every way. By being competitive right now, people have to do something to make themselves survive, being in the middle of the particular crowded place and notice through surrounding. One thing that often many people have underestimated the idea for a while is reading. Yep, by reading an e-book your ability to survive is boosted then having a chance to remain higher than others is high. For you who want to start reading a new book, we give you this particular Detecting & Classifying Low Probability of Intercept Radar (Artech House Radar Library) book as a basic and daily reading publication. Why, because this book is greater than just a book.

Jerry Petrus:

Hey guys, do you want to find a new book you just read? Maybe the book with the title Detecting & Classifying Low Probability of Intercept Radar (Artech House Radar Library) is suitable to you? The book was written by a well-known writer in this era. Typically the book titled Detecting & Classifying Low Probability of Intercept Radar (Artech House Radar Library) is one of several books in which everyone reads now. This particular book has inspired lots of people in the world. When you read this e-book you will enter a new shape that you never knew before. The author explained their idea in a simple way, thus all of us can easily be aware of the core of this book. This book will give you a great deal of information about this world now. To help you to see the representation of the world in this particular book.

Priscilla McNeil:

The book Detecting & Classifying Low Probability of Intercept Radar (Artech House Radar Library) will bring you to definitely a new experience of reading a book. The author's style to describe the idea is very unique. In the event you try to find a new book to read, this book is very suitable to you. The book Detecting & Classifying Low Probability of Intercept Radar (Artech House Radar Library) is much recommended to you to learn. You can also get the e-book on the official website, so you can read the book easier.

Beatrice Blakely:

The reason why? Because this Detecting & Classifying Low Probability of Intercept Radar (Artech House Radar Library) is an extraordinary book that is inside the guide waiting for you to snap that but later it will zap you with the secret that is inside. Reading this book is close to it was a fantastic author who all write the book in such a remarkable way that makes the content within easier to understand, an entertaining approach but still conveys the meaning completely. So, it is good for you because of not hesitating having this any longer or you going to regret it. This unique book will give you a lot of advantages that other books have not, such as help improving your proficiency and your critical thinking technique. So, still want to hold off having that book? If I have been you I will go to the book store hurriedly.
