Atomi e dintorni (Narrativa universale) (Italian Edition) Marco Turazza

“Atomi e dintorni” è una breve guida sulla storia e la scienza degli atomi. Vi si racconta, senza utilizzare incomprensibili equazioni matematiche, la loro nascita nel momento del Big Bang e la loro trasformazione da un tipo a un altro nel corso della loro evoluzione. Ripercorreremo gli studi e le ricerche dei filosofi antichi fino ad arrivare alle moderne teorie dei fisici del nostro tempo che ci svelano i segreti degli atomi. Descriveremo i principi della fisica classica, relativistica e quantistica, partendo dall'Universo e arrivando all'infinitamente piccolo. Alla fine del racconto, le appendici ci aiuteranno ad approfondire i vari argomenti trattati fin lì. Le appendici possono essere consultate dal lettore oppure possono venire tralasciate. Sono indipendenti e il lettore può scegliere di leggerle a seconda delle proprie curiosità. L'autore cerca di spiegarci in modo discorsivo ma seguendo sempre una logica scientifica, cose che altrimenti molti di noi non riuscirebbero a comprendere nei particolari. Un percorso che vuole metterci in condizioni di conoscere, per quanto possibile, i misteri della materia e dell'energia e, in ultima analisi, dell'Universo stesso.

From reader reviews:

Robert Burke:

Reading a publication can be one of a lot of exercise that everyone in the world adores. Do you like reading book thus. There are a lot of reasons why people enjoy it. First reading a e-book will give you a lot of new facts. When you read a guide you will get new information due to the fact book is one of various ways to share the information or maybe their idea. Second, examining a book will make anyone more imaginative. When you reading through a book especially fictional works book the author will bring that you imagine the story how the people do it anything. Third, you could share your knowledge to other folks. When you read this Atomi e dintorni (Narrativa universale) (Italian Edition), it is possible to tells your family, friends and soon about yours guide. Your knowledge can inspire different ones, make them reading a e-book.

Charles Powers:

People live in this new day of lifestyle always try and and must have the spare time or they will get lots of stress from both lifestyle and work. So , whenever we ask do people have time, we will say absolutely indeed. People is human not really a robot. Then we question again, what kind of activity do you have when the spare time coming to an individual of course your answer will unlimited right. Then do you try this one, reading textbooks. It can be your alternative inside spending your spare time, often the book you have read is usually Atomi e dintorni (Narrativa universale) (Italian Edition).

Curtis Hernandez:

Don't be worry in case you are afraid that this book will filled the space in your house, you could have it in e-book technique, more simple and reachable. This Atomi e dintorni (Narrativa universale) (Italian Edition) can give you a lot of friends because by you considering this one book you have factor that they don't and make a person more like an interesting person. This particular book can be one of a step for you to get success. This publication offer you information that perhaps your friend doesn't realize, by knowing more than different make you to be great men and women. So , why hesitate? We need to have Atomi e dintorni (Narrativa universale) (Italian Edition).

Steven Burley:

As a scholar exactly feel bored to help reading. If their teacher requested them to go to the library or to make summary for some book, they are complained. Just minor students that has reading's spirit or real their pastime. They just do what the professor want, like asked to go to the library. They go to right now there but nothing reading very seriously. Any students feel that studying is not important, boring and can't see colorful images on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this Atomi e dintorni (Narrativa universale) (Italian Edition) can make you truly feel more interested to read.
