Temperate Woodland Conservation and Management

Temperate Woodland Conservation and Management

This book summarises the main discoveries, management insights and policy initiatives in the science, management and policy arenas associated with temperate woodlands in Australia. More than 60 of Australia's leading researchers, policy makers and natural resource managers have contributed to the volume.

It features new perspectives on the integration of woodland management and agricultural production, including the latest thinking about whole of paddock restoration and carbon farming, as well as financial and social incentive schemes to promote woodland conservation and management.

Temperate Woodland Conservation and Management will be a key supporting aid for farmers, natural resource managers, policy makers, and people involved in NGO landscape restoration and management.
