LEARNING TO PROGRAM EXCEL MACROS USING THE MICROSOFT EXCEL MACRO RECORDER

Roger Hackney

LEARNING TO PROGRAM EXCEL MACROS USING THE MICROSOFT EXCEL MACRO RECORDER Roger Hackney IF THIS IS YOU?

- > Tired of the same Dead End Job?
- > Want to Learn more about Computers?
- > Want to Learn more about Excel and Excel Macro Programming?
- > Want more marketable Job Skills?
- > Can't afford the Time or Money to attend College?
- > Think learning Excel Macro Programming is Too Difficult?

Then...

THIS BOOK IS FOR YOU!

This book is designed for all of the people that use Microsoft Excel and wish to simplify their life.

- > If You have no computer science or programming background of any kind.
- > If You have learned how to use Excel on the job or are self-taught.
- > If You do have some formal computer training, and know a little about Excel macros, and how helpful they can be, but have never really been able to learn to use their full potential.
- > If You already know how to record a simple Excel macro but, want to learn how to modify them to do more than what's actually recorded.
- > If You have wanted to learn more about programming Excel macros but, can't find a suitable book (one that's not filled with a bunch of Techno Geek-Speak).

Well friends, if you answered yes to any of these questions, then **THIS BOOK IS FOR YOU!**

I hope my method of teaching will help all of you to work more effortlessly, to get more done, and to have more time to plan office parties or lunches.

WHY IT'S BETTER

This book is **NOT** like other Excel Macro programming books!

Traditional programming is complicated and takes a very logical mindset and lots of education.

Most of us don't have the time, patience or financing available to learn to program.

Paradoxically, most people who do take the time and money to go to school for a Compute Science degree,

are doing something other than programming Excel macros for people to use in their everyday lives.

The good news is that you don't need a Computer Science degree to create useful simple, or even complex, Excel macros any more than someone who wants to know how to program their VCR needs an Electrical Engineering degree.

Best of all, since the Excel Macro Recorder has not changed significantly over time, you should be able to use this one book with any of the following applications:

- > Excel 97 - Macro Recorder
- > Excel 2000 - Macro Recorder
- > Excel 2002 - Macro Recorder
- > Excel XP - Macro Recorder
- > Excel 2003 - Macro Recorder

Think of the savings!

WHAT OTHERS ARE SAYING...

"I have had the opportunity to attend classes taught by Roger Hackney. His style of teaching is easy to understand and follow. Roger teaches technical concepts starting from the very basics, understanding that everyone learns at a different pace.

I have enjoyed learning how to use Excel, Word, Access and other computer applications from Roger. I look forward to learning more about programming Excel Macros using the Excel Macro Recorder."

Sincerely,
Anita C.
Nutritional Manager
Middle School, AZ

SO WHAT MAKES ME AN EXPERT?

In a nutshell - Experience!

Here is just a brief synopsis of my qualifications:

- > Over 20 years in the computer industry.
- > Director of home schooling educational software department
- > Computer Trainer for school district office personnel
- > Certified Excel Visual Basic for Applications Power Coder
