Manuel de psychiatrie (French Edition)

Edward Jentz III, Julien-Daniel Guelfi, Frédéric Rouillon

Manuel de psychiatrie (French Edition) Edward Jentz III, Julien-Daniel Guelfi, Frédéric Rouillon
Quatre années après la première édition de ce *Manuel de psychiatrie*, il a paru nécessaire d'en proposer une nouvelle version, mise à jour et assez largement enrichie.

Nombre de données nouvelles en matière d'épidémiologie, de biologie, de génétique, de psychologie cognitive, d'imagerie et de thérapeutique ont ainsi été actualisées, rédigées par des **auteurs référents francophones reconnus**.

Un chapitre a été entièrement refondu, celui sur la législation en psychiatrie avec la présentation des **lois nouvelles appliquées en France depuis l'été 2011**, notamment celle encadrant les **soins sous contrainte**. Enfin, en matière de classification, la parution de la cinquième révision de la classification américaine des troubles mentaux, le **DSM-5**, est prévue courant 2013. Plusieurs tendances sont déjà accessibles depuis la mise en ligne en février 2010 des recommandations et propositions des différents groupes de travail qui ont synthétisé les principales revues générales de la littérature internationale sur l'ensemble des troubles mentaux.

Nous avons mentionné aussi souvent que possible les grandes orientations de cette classification dont certaines font encore l'objet de débats et d'enjeux importants.

Les auteurs de ce Manuel ne croient pas à la mort parfois annoncée de la psychiatrie dont la spécificité aurait été dénaturée par l'émergence du concept de santé mentale. La diversification du champ d'intervention et l'hétérogénéité des références théoriques ont certes pu fragiliser la psychiatrie mais cette évolution ne doit pas être un motif de découragement mais plutôt le signe de son renouveau.

Cet ouvrage en témoigne, destiné principalement aux étudiants en médecine, aux psychiatres en formation ainsi qu'à l'ensemble des spécialistes des sciences humaines dont l'objectif principal - sinon exclusif pour certains - est de soulager la souffrance psychique.
