The Little Book of Big Profits from Small Stocks + Website: Why You'll Never Buy a Stock Over \$10 Again (Little Books. Big Profits) Hilary Kramer

The key to building wealth the low-priced stock way

Low-priced gems, or what author Hilary Kramer calls "breakout stocks" come in all kinds of shapes and sizes but they all have three things in common: (1) they are mostly under \$10; (2) they are undervalued; and (3) they have specific catalysts in the near future that put them on the threshold of breaking out to much higher prices. In *The Little Book of Big Profits from Small Stocks*, small stock expert Hilary Kramer looks for stocks with fifty to two hundred percent upside potential!

From drug stocks that may have been punished because an FDA approval failed to materialize when Wall Street expected it to, to the overly zealous selling off of Ford, there are many great low-priced stock opportunities. In this Little Book you'll learn:

- How to identify the low cost stocks that have the potential to yield big profits
- The most important secret to making money in stock investing
- Plus, you'll gain instant access to a website with educational videos, interactive tools and stock recommendations

The Little Book of Big Profits from Small Stocks explains Kramer's methodology and gives you the ability to analyze the opportunities to pick your own winners.
