The Preacher's Toolbox series is designed to provide guidance on the essential elements of a variety of preaching forms and preparation to those in the pulpit—professionals and laypersons alike.

Book three of the series focuses on one of the most important foundations for sound sermons: the importance of approaching scripture with an accurate understanding of the historical text along with the ability to speak in new and powerful ways in a contemporary setting.

In other words, how does one best make ancient biblical texts pertinent to the 21st century listener while maintaining the integrity of the scripture?
