Sensible Religion

Christopher Lewis, Dan Cohn-Sherbok

Sensible Religion Christopher Lewis, Dan Cohn-Sherbok

Around the globe religion is under attack. Humanists, secularists and atheists depict believers as deluded and dangerous. The aim of this book is to challenge this perception. *Sensible Religion* defends the validity and emphasises the excitement of the religious quest across the faiths. It demonstrates that the practice of sensible religion is often a courageous path pitted against religious extremism and secularism. Written by committed believers from the major world's faiths, the book endorses the term 'sensible' as expressing religious reasonableness as well as sensitivity to criticism and new insights. Followers of the different traditions live ordinary lives in the mainstream of the world. This volume therefore addresses beliefs and the manner in which these convictions relate to social, political and ethical action. Countering the argument that religion is at root extremist and irrational, *Sensible Religion* brings together thoughtful and critical reflections by leading thinkers about humanity's spiritual quest.
